BOARD	CHRONO

1. The merger proposed between FHB, Para-Military and Staybehind operations has been implemented and there is now full integration of their administration in FHB.
2. The integration of operations, naturally a more gradual and detailed process, is proceeding as outlined in the latter dispatch. Although the transfer of case officers from the T/O of Staybehind Section FHB has reduced our staff to where we can only maintain the status quo on operations KIBITZ and 'C' I, the job descriptions referring to the T/O slots nevertheless still apply in every case.
3. At present FHB is performing final action in the preparation of a joint field project outline covering the staybehind field. This will be submitted to you soon; its final refinements are now being worked out.
